[cheney.glen@gmail.com](mailto:cheney.glen@gmail.com) - (541) 231-5699

### School Address

219C Perkins Rd  
Rochester, NY 14623

### Permanent Address

1032 NE Diane Pl  
Corvallis, OR 97330

**OBJECTIVE:** To obtain a full time position in web development and work with a team of talented individuals.

**EDUCATION:** **Rochester Institute of Technology** **Rochester, NY**  
Bachelor of Science in New Media Interactive Development May 2012  
GPA: 3.77 (PFOS 3.81)

**SKILLS:** **Languages:** PHP, JavaScript, HTML5, CSS3, MySQL, C#, ActionScript 3, Objective-C, XML, Java, Redis, Node.js  
**Software:** After Effects, Dreamweaver, FileZilla, Flash, Illustrator, Navicat, Netbeans, Photoshop, phpMyAdmin, Sony Vegas, Unity, Visual Studio  
**Other:** Some Spanish, quick learner, work effectively in groups.

### **PROJECTS:**

- A.R.T.I. is my capstone project. My team of seven individuals (3 developers and 4 designers) created it. A.R.T.I. generates art using the user's biometric data. Microsoft's Kinect captures the data using the Kinect SDK and C#. It is then stored in a Redis database. Using Node.js, Express, and Jade, I created the gallery for people to view the art. The final step was to have Processing use the user's data to create the art.
- Built custom CMS using PHP to manage YourCampus360's database, implemented Facebook registration feature, updated Android app, redesigned walking tour.
- Worked with the development team at Rokkan to build breakthru radio.com. The site utilized WordPress MU as a CMS and we built the front-end ourselves with PHP, MySQL, jQuery, and Flash.
- Built Jeopardy! and an Admin for the questions/categories stored in a MySQL database. It requested xml from the admin. I built it with PHP and some jQuery.

**EXPERIENCE:** **Rochester Institute of Technology** **Rochester, NY**  
**Lab Assistant, GCCIS** **9/08 -- Present**

- Assist people in lab
- Monitor lab activity

**YourCampus360** **New York, NY**  
**Junior Developer** **3/11 -- 7/11**

- Built new features for web applications, developed features for Android app, enhanced content management system and reporting.

**Rokkan** **New York, NY**  
**PHP Developer** **5/10 -- 7/10**

- I worked with the development team to build sites for clients. The main project I worked on was built with PHP using WordPress for the content management system.

### **ACTIVITIES/HONORS:**

- RIT Merit Scholarship, New Media Club
- Interests include hockey, lacrosse, and videogames
